About Me

I am a skilled **Software Developer** with a passion for building reliable, test-driven applications. My expertise spans across **Java Development, Mobile App Development (Flutter), and Web Technologies**. I thrive in Agile environments, committed to writing clean code, efficient debugging, and leveraging automated testing to ensure high usability standards.

- 🚀 I'm currently working on advanced **Java** and **Flutter** projects.
- 🌱 I'm currently learning **AI/ML** and **Prompt Engineering**.
- 💬 Ask me about **Java, Flutter, Python, and System Design**.
- ⚡ Fun fact: I strive to optimize database interactions to enhance application responsiveness (achieved 34% improvement in a recent project!).

Languages and Tools

[Languages & Frameworks](#)

[Tools & DBs](#)

Professional Experience

Java Developer Intern @ *Young Element India*

(Apr 2026 - Sep 2026) * Developed and maintained robust Java-based modules, significantly improving system reliability. * Optimized database interactions with **MySQL** and **Firebase**, enhancing responsiveness by **34%**. * Collaborated on client requirements and adhered to strict coding standards.

Mobile App Development Intern @ *Incubators Systems Pvt. Ltd*

(Sep 2025 - Dec 2025) * Built interactive and responsive UIs using **React.js**. * Implemented state management solutions (Provider) and custom UI/UX components. * Ensured optimal performance across devices following user-centered design principles.

Projects

Project	Description	Tech Stack
JourneySync App	A travel collaboration app enabling syncing of travel plans, real-time chat, location sharing, and notifications.	Flutter, Provider, REST APIs
LegalHelper	A comprehensive legal service ecosystem connecting Citizens, Lawyers, and Students, featuring an AI chatbot (Gemini API).	Flutter, Firebase, AI/ML
Share My Ride	A ride-sharing platform for long-distance booking with user authentication and admin dashboard.	Flutter, Auth Systems
